Virginia against equal distribution. He was an older democrat than some of them—too old a one to be caught by chaff and straw traps. He was not bound to accept every issue lendered him by the Opposition. He adverted to the positions laken by the great Democratic leaders on the subject of distribution. In 1829-30-and 31 Gen. Jackson recommended it. In 1834 he vetoed Mr. Clay's Bill, because it not only gave proceeds to the States, but undertack to control their appropriation of them, which was unconstitutional. It was an electioneering bill introduced by Gen. Jackson's enemies, and he was bound to veto it.

Mr. Buchanan once voted for the engrossment of a bill to distribute, and on several occasions declared his belief in its constitutionality. He (Mr. L) begged therefore if he was to be read out of the Democratic church, that Mr. Buchanan the Democratic president might be read out also. He did not believe that he was in a minority of

the Democra c/ of Virginia on this issue. The great North West was with him. But even if he stood alone, he was fearless. He had differed with the party before. He remembered to have stood up in Charlestown and raised his voice against Gen. Jackson's proclamation as a Federal document. He stood up in a little posse of thirteen, and yet he had lived to see the day when the mas of the party were with him standing on the middle ground tetween kullification and consolidation.— He had carried the Democratic banner through this district with the independent Treasury inscribed on it, and bore it in triumph, with a bare majority of four to back him.

The South would be compelled to take his position on the land question in the end. The Home-stead bill was a competing measure with Distribu-tion. That bill had already come near being passed. The amendment of Geo. W. Jones to the land graduation bill embodying the homestead principle passed the House in 1855, and you Sir, (Mr. F.) were absent. I hope sir, you had a good excuse—I hope sir, you were sick. The homestead principle is to throw open the public lands to the whole world. It invites not only the inhabitants of whole world. It invites not only the inhabitants of We nearer Western States, and the more populous North, but the inhabitants of the four quarters of the globe—of Europe, Asia, and Africa—to enter into a scramble with the people of Virninia who who shall get the most of the public lands! When shall we be better able to resist this agrarian scheme than now? If Virginia is ever to enjoy any benefit from them, when could that benefit be more acceptable than new? Now when she is recaning under taxation, and struggling under strooming under taxation, and struggling under \$35,000 000 of debt! Let her get her share and complete the Rail-roads. Let her get it and complete the Alexandria and Hampshire Rail-road—the greatest artery connecting by the nearest route the waters of the Mississippi and the Atlantic. I the lands were not given away but sold, and Vir ginia should receive her share of the proceeds, she could construct this great work herself, and that was what he was in layor of.

In conclusion Mr L again adverted to the posi-tion he occupied as the candidate of the old-liners. He carried their banner inscribed with their mot 10 - A fair distribution of the honors among the old-liners os w ll as the new recruits, and a fair distribution of the proceeds of the public lands among the old states as well as the new.

Special Potices.

OG-FEVER AND AGUE—AN INFALLIBLE CURE—We defy the world to produce any medicine which does not contain Quinine. Bark, Arsenic, Mercury or any noxious or deadly compound, to cure this annoying disease so effectually as Carter's Spanish Mixture. While it contains none of the above named dangerous articles, yet it posesses a power in relieving and curing Fever and Ague which cannot be approached by any of them separately or in combination. It acts specifically on the Liver, Purifies the Blood, opens the pores of the Skin, and assists nature to expel from the system the seeds of Disease, or that is as bad, the remains of the Mineral Drugs, which clog and finally destroy the constitution.

See the cure of Mr. Lougden of Virginia; He had Chills twice a day for 3 years, nothing would re liev him until he tried Carter's Spanish Mixture, only 3 bottles of which effectually restored him t health, nor has he had a return of the disease since.

No. Hutchison & Burnett's Compound Syrup of HOREHOUND. A safe and certain cure for Colds, Coughs, Bronchitis, and all Pulmonary affections. Prepared solely by HUTCHISON & BURNETT, Charlestown, Va. Also for sale by Dr. CLAGETT, Harpers-Ferry. [Feb. 21,

OXYGENATED BITTERS.

The annexed statement of Prof. A. A. Hayes, M. D., State Assayer, is ample testimony of the scientific manner in which this medicine is compounded, and and recommends it to Professional Men.

An opinion having been asked for of me, in consequence of the formula for preparing Oxygenated Bitters being known to me, I express the following in form:

Phe composition of these Bitters includes those

dicinal substances which experienced physicians ve long resorted to for special action on the system, when defanged by Fevers, Dyspepsia, Agues, General Debility, resulting from exposure or nate influence. heseare rendered permanent, and remain acin this preparation, as a consequence of the ntific manner in which they are combined. was a well founded inference, that the prepa-on, used in larger or smaller doses, would prove luable General Medicine, which experience has this medicine, no metallic salts can be found,

this medicine, no metallic saits can be found, the most delicate chemical trials.

Respectfully, A. A. HAYES, M. D.,
Assayer to the State of Mass.

TTER FROM HON. JOHN MINOR BOTTTS, OF VIRGINIA MESSIS. WM. S. BEERS & Co. Richmond July 9.
Gentlemen: -Considerations of duty to the afflicted alone prompt me to send you this voluntary testimonial to the great value of CARTER'S SPAN-SH MIXTURE, for that almost incurable disease, crofula. Without being disposed, or deeming it necessary

to go into the particulars of the case, I can say that the astonishing results that have been produced by that medicine, on a member of my own family, and under my own observation and superintendence, after the skill of the best physicians had been exhausted, and all the usual remedies had failed, fully justify me in recommending its use to all who may be suffering from that dreadful malady.

I do not mean to sa that it is adapted to all con-

stitutions, or that it will afford the same relief in all cases; for, of course, I can know nothing about that—but from what I have seen of the effects I would not hesitate to use it in any and every case of but we were suprised to hear a gentleman seeking Scrofula, with persons for whom I felt an interest. their lead and use their very language without or over whom I could exercise influence or control.

April 21, 1857. BROWN COTTONS, (manufactured at Harpers-PF efo ,) reale by CRAMER & HAWRS.

ATTENTION, FARMERS! Guano Exceled BY DE BURG.

IT is a settled point with all Chemists and scientific Farmers, that Peruvian or any other description of guano, does not supply to the soil one third of the necessary constituents for the growth of all crops, on all soils; and the analysis of wheat, rye, corn, oats, potatoes, tobacco, &c., prove the fact. Every one who has had any experience in the use of guano, knows, that the land becomes exhausted and impoverished by its continued application.

hausted and impoverished by its continued application.

The true secret of farming, as we understand it, is to furnish the land with the cheapest manure, that will grow the largest crops, and at the same time improve it.

Too object of De Burg is to supply to the soil all, and every requisite required by the crop for its growth and maturity, and leave a surplus for its subsequent improvement. Not supplying yearly costly manures for the one crop alone, without a prospect for future benefit, but to grow as large crops of every description as guano, and add permanently to the improvement and fertility of the land.

and.

Dr. David Stewart, Professor of Chemistry at St.

Appanolis, Md., and the Chemist Dr. David Stewart, Professor of Chemistry at St. John's College, Annapolis, Md., and the Chemist to the Maryland Sta e Agricultgral Society—analyzes every lot of De Burg we receive, and says, in his reports to us:

"De Burg's compound is much more generally valuable to the practical farmer than any mixture of phenophates and ammonia or manipulated graphs."

of phosphates and ammonia or manipulated guano.

"There are other elements in De Burg to which I attach as much importance as ammonia and phosphates, and I cannot pass a cargo where one of these is absent, however much ammonia and phosphates." phates are present.

How, R. Y. Connad, Winchester, Va., says, 18th

How. R. Y. Conead, Winchester, Va., says, 18th December, 1856: "For two years I have applied De Burg to the corn crop; each time with very marked effect in increasing the product. That no mistake might exist as to the cause, I have left rows in the field, to which none was applied, and the difference of yield was perfectly obvious. I applied about a table spoonful to each hill, before covering, mixed with said or earth, to about a handful."

FAUQUER CO.—R. H. Dulany, Esq., applied De Burg on his corn and spring crops, and was much pleased with the result. It fully equalled Peruvian Guano.

JOSEPH NEWMAN, Esq., Gordonsville, Va., 14th Guano.

JOSEPH NEWMAN, Esq., Gordonsville, Va., 14th
December, applied De Burg and No. 1, Peruvian
Guano on corn, side by side, same rate per acre,
and if there is any difference in the yield, it is in
favor of the De Burg.

NOTICE.

For the protection of our own and the farmer's interest, and to avoid any mistake on the part of the manufacturer, every lot we receive is thoroughly inspected and analysed, by Dr. David Stewart, Chemist to Maryland State Agricultural Society, who rejects all that does not come up to the fixed standard; thereby guarant.eing to the farmer a uniformity not to be found in Guano or any other fertilizer; and farmers will also

Bear in Mind,

That it is only De Burg that produces the above results, and in consequence of the greatly incressed demand—which is beyond all precedent in artificial manures—many imitations have been put upon the market, and palmed off for the genuine.

Farmers should therefore be particular, and buy none except from responsible dealers. The genuine is in barrels with WHITE HEADS, SCINCILLED GURG'S No. 1 AMMONIATED SUPER-PHOS-PHATE OF LIME, in BLACK LETTERS; to secure which call on or address, Bear in Mind, PHATE OF LIME, in which call on or address,
J. J. & F. TURNER,

J. J. & F. TURNER,
42 PRATT STREET, BALTIMORE, MD.
Present price, \$43 per ton of 2,000 lbs., or \$13
per ton cheaper than Peruvian Guano.

DE BURG'S NO. 1 MANIPULATED GUANO! WE intend keeping on hand a full supply of the above, composed of Peruvian and Phosphatic Guanos, warranted of uniform quality.

Every lot is subjected to the inspection of Dr. David Stewart, Chemist to Maryland State Agricultural Society, which is a protection to the Farmer and a guarantee of its quality, and will be found upon examination, superior, as the analysis proves, to any neretofore sold in this market. Mr. De Burg's facilities and machinery for uniform manipulation, are superior to any other in this country. Analysis of De Burg's No. 1, Manipulated Guana:

Salts of Ammonia, 30.31
Mixed Phosphates. 46.76
Sand or Insoluble Portion, 2.38
Carbonates and other Elements, 7.15
Water or Loss, 13.40

9.65 per cent. of Pure Ammonia.
46.76 " of Phosphates.
